

Massotherapy or Reiki Relaxation Massage

Massotherapy and Reiki massage are now recognized as beneficial to an animal's well being. Just as less invasive approaches to health care in humans has gained acceptance in recent years, so have these procedures and methods in the care and treatment of animals.

Whether your canine friend is an agility competitor, working dog, aid to the handicapped or family friend, massage should be an integral part of your pet's health care program. Massage can help dogs recovering from surgery, injuries or suffering from arthritis and it can assist in creating a calmer dog, which improves socialization skills. When introducing any new service to your pet, please consult your veterinarian.

Aromatherapy

We offer canine aromatherapy treatments using Bach® Flower Remedies to help correct emotional imbalances and negative emotions. Bach® Flower Remedies are 100% safe and natural, and they work in conjunction with herbs, homeopathy and medications. Our treatments are safe for everyone, including pets. Your stylist can recommend the best treatment for your pet. Ask us about Rescue Remedy® which can help your pet relax, stay focused and remain calm during new experiences.

Kiss me on the lips, dahling.

Fresh breath is a must for the cosmopolitan canine. Your pet's teeth are brushed with an all natural, delicious and effective vanilla-flavored toothpaste followed by your choice of Petzlife® spritz or gel application. The toothpaste and toothbrush are yours to keep. We also offer Sonic teethcleaning with poultry-flavored toothpaste. Yum! *Petzlife®, Petosan®, and Kissable® products are available for purchase in our boutique.*

Signature Spaw Bath

Your dog's spa bath begins with gentle cascades of warm water flowing over the body. Next, our pawfessional salon stylist hand washes your pet with an all-natural, gentle shampoo to cleanse and remove deep-down dirt and dander from your pet's coat and skin.

Our spaw products contain pure essential oils that nourish the coat leaving it clean and shiny. Our handmade shampoo is infused with citronella and essential oils to provide natural flea control in addition to its aromatic benefits.

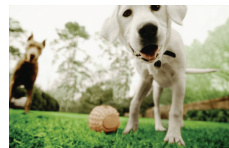

Secure in a warm and nurturing environment, your pet's back and head are gently massaged to soothe away tension. Every spaw bath treatment includes towel drying, by hand (as coat conditions permit), to make your pet's spaw experience as comfortable and stress-free as possible.

Ask about our medicated treatments for those pups with sensitive skin or allergies.

Salon Groom

Our Salon Groom includes our nearly world famous Signature Spaw Bath as well as hand scissoring per breed-specific standards or to the owner's specifications, trimming pasterns, hocks, tail, and the hair between the toes. Nail and ear trimming are also included in our salon grooming package.
